PROFESSIONAL SUMMARY

Software engineer and technical artist specializing in AI automation, game development, and emerging technologies. Proven experience building intelligent systems, Unity applications, and interactive media solutions.

EXPERIENCE

BebopBee, Inc.

Mercer Island, WA (Remote)

Software Engineer and Game Design Intern

June 2025 – August 2025

- Engineered five autonomous AI agent systems with external API integration and JSON parsing, achieving 95%+ automation of manual workflows across trivia, social media, and project management
- Implemented leaderboard algorithms and chat classification systems in C# for Unity, and developed JavaScript player tracking in BrainCloud for real-time engagement analysis
- Developed advanced 2D lighting systems using normal map generation for dynamic 3D-quality sprite effects, and produced in-game art collaboratively with GenieLabs
- Designed feature proposal to improve engagement and monetization selected by leadership for future implementation, and analyzed gameplay to identify bugs and improvement opportunities

AiFi

Burlingame, CA (Remote)

Software Development & UI/UX Intern

June 2023 – July 2023

- Developed interactive product visualization systems with C# in Unity, implementing real-time colorization algorithms triggered by AI-detected human-product interactions within autonomous retail environments
- Scripted 3D coordinate mapping viewports displaying real-time customer positional data in virtual spaces
- Redesigned client-facing database interfaces with Figma and Unity and conducted usability testing for camera feed analysis tools, optimizing workflow efficiency for retail partner operations

Narika

Fremont, CA (Remote)

Freelance Technical Animator

June 2023 – August 2023

- Initiated and executed end-to-end 3D animation production for teen dating violence prevention curriculum, managing complete pipeline including character modeling, rigging, environment design, and rendering

EDUCATION

University of Southern California

Los Angeles, CA

B.F.A in Game Development and Interactive Design

Expected May 2028

GPA: 4.0/4.0

Relevant Coursework: Game Development Fundamentals, Applied Python, Game Design Workshop, Fundamentals of Procedural Media, Business and Management of Games

The Harker School

San Jose, CA

GPA: 4.36/4.0, **ACT:** 35

August 2020 – May 2024

Relevant Coursework: AP Computer Science A, H. Neural Networks, H. Data Structures, AP 2D Art & Design

TECHNICAL SKILLS

Programming: C#, Python (PyTorch, NumPy, scikit-learn, pandas, matplotlib), Java, JavaScript, HTML/CSS, Unity Engine, Git/GitHub, Perforce

Creative Tools: Autodesk Maya, Adobe Creative Suite, Figma

Specialized: Neural Networks, API Integration, Shader Programming, 3D Modeling & Animation

AWARDS

- 2023 FIRST Robotics Judge's Award | *Design Director*
- 2022 FIRST Robotics Excellence in Engineering Award | *Design Lead*
